

**DEPARTMENT OF IMAGING
UNIT OF NEURORADIOLOGY**

We would like to invite applications at the Bambino Gesù Children's Hospital for one position of research fellow in imaging analysis and spectroscopy. The position involves undertaking research in pediatric metabolic diseases, with focus on the implementation of methods and analysis in magnetic resonance spectroscopy to study metabolic profiles of metabolic diseases.

Degree as biomedical engineer is requested. Clinical and research expertise in the field of magnetic resonance imaging, including knowledge of analysis and processing of MRI spectroscopy data would be considered an advantage. A knowledge of at least one programming language between C and Python will be considered.

A starting 12-months research position will be awarded to the successful candidate. Position and salary will depend on qualification and experience.

Review of applications will begin on October 2019 and will continue until the position is filled.

Applications, including the applicant's CV and the name/address of two reference persons, should be submitted to direzione.scientifica@opbg.net, quoting the code OPBG2019/03

For any further information, please contact Dr Daniela Longo (daniela.longo@opbg.net)
