PROGRAMMA SCIENTIFICO

- 08.30-09.00:** Registrazione dei partecipanti
- 09.00-09.10:** Saluti
- 09.15-10.15:** Definizione di Ipercolesterolemia Familiare (IF), epidemiologia, fisiopatologia e criteri diagnostici (*A. Bartuli*)
- 10.15-10.30:** Discussione
- 10.30-11.00:** Elementi terapeutici nella Ipercolesterolemia Familiare (*L. Iughetti*)
- 11.00-11.15:** Discussione
- 11.15-11.30:** Coffee break
- 11.30-12.00:** Progetto SPIF (*A. Bartuli, M. Macchiaiolo, P.S. Buonuomo*)
- 12.00-12.15:** Presentazione Registro Ipercolesterolemia Familiare (*P. Casucci*)
- 12.15-12.30:** Discussione
- 12.30-13.30:** Casi clinici interattivi (*Modera A. Correrà, Presentano: G. Mastrogiorgio, M. Scalzone, M.T. Carbone*)
- 13.30-14.00:** Questionario di verifica per i partecipanti
- 14.00-14.15:** Discussione
- 14.15-14.30:** Verifica dell'apprendimento

NOTE

NOTE

NOTE

the 1990s, the number of people with a mental health problem has increased in the UK (Mental Health Act 1983, 1990).

There is a growing awareness of the need to improve the lives of people with mental health problems. The Department of Health (1999) has set out a vision of a new mental health system, which will be based on the following principles:

• People with mental health problems should be treated as individuals, with their own needs and wishes.

• People with mental health problems should be given the opportunity to participate in decisions about their care and treatment.

• People with mental health problems should be given the opportunity to live in their own homes and communities.

• People with mental health problems should be given the opportunity to work and to contribute to society.

• People with mental health problems should be given the opportunity to live a full and active life.

• People with mental health problems should be given the opportunity to be treated with respect and dignity.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated as individuals.

• People with mental health problems should be given the opportunity to be treated with compassion and understanding.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with respect and dignity.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with compassion and understanding.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with respect and dignity.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with compassion and understanding.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with respect and dignity.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with compassion and understanding.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with respect and dignity.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

• People with mental health problems should be given the opportunity to be treated with compassion and understanding.

• People with mental health problems should be given the opportunity to be treated as equal citizens.

Obiettivo del corso è fare il punto sulla Ipercolesterolemia Familiare (IF), una patologia genetica, curabile farmacologicamente, trasmessa con modalità autosomica dominante, che causa un ridotto catabolismo del colesterolo LDL con associato rischio di malattia cardio vascolare precoce. Ha una prevalenza di 1 a 380-500 individui.

Lo studio è promosso all'interno del progetto CCM del Ministero della Salute "SPIF: screening pediatrico Ipercolesterolemia Familiare".

INFORMAZIONI GENERALI

DATA E SEDE:

I Edizione 14 Marzo 2015

II Edizione 17 Ottobre 2015

Aula Salvati 1 - Ospedale Pediatrico Bambino Gesù
Piazza S. Onofrio, 4 - 00165 Roma

ISCRIZIONI:

È obbligatorio effettuare l'iscrizione on-line su:

<http://www.formazione.ospedalebambinogesu.it/>

Saranno accettate le prime 90 iscrizioni. Non sarà possibile effettuare l'iscrizione in sede qualora il numero massimo di iscritti sia stato raggiunto.

EDUCAZIONE CONTINUA IN MEDICINA (ECM):

Al Corso sono stati assegnati **n. 4,5 crediti formativi per la figura professionale del Medico Chirurgo (pediatria, pediatri di libera scelta).**

Il rilascio dei crediti è subordinato all'effettiva presenza del partecipante all'intero evento formativo verificata attraverso la registrazione manuale (firma entrata/uscita), alla compilazione del questionario sulla soddisfazione dell'evento e alla verifica del questionario per la valutazione dell'apprendimento.
